JAMSHEDPUR JESUIT SOCIETY
Loyola Niwas, 15 Straight Mile Road, Sakchi,
Jamshedpur – 831001, Jharkhand, INDIA

6 May 2026

It gives me great joy to share a few words with the Xavier family through this Annual Magazine of Xavier School, Gamharia. A school magazine is much more than a collection of articles, photographs, and achievements; it is a living chronicle of the aspirations, creativity, and growth of a vibrant learning community.

Education, especially in the Jesuit tradition, seeks not only academic excellence but also the formation of responsible, compassionate, and socially conscious human beings. The vision of nurturing “men and women for others” continues to inspire our schools to shape young minds with integrity, courage, and sensitivity towards society and the environment.

Every student carries unique gifts and possibilities within. The classroom, playground, cultural stage, laboratory, and community outreach activities all become spaces where these talents are discovered and refined. I encourage every student to cultivate curiosity, discipline, empathy, and a deep respect for human dignity. Success in life is not measured merely by marks or achievements, but by the kind of person one becomes and the positive difference one makes in the lives of others.

To the teachers, I express sincere gratitude for your dedication and patient accompaniment of young learners. Your role goes far beyond imparting knowledge; you are mentors who awaken confidence, character, and hope. To the parents and guardians, thank you for your trust, collaboration, and sacrifices that strengthen the educational undertaking of the school.

The world today faces many challenges; social divisions, environmental degradation, rapid technological change, and growing uncertainty. Yet every challenge also opens an opportunity for responsible leadership and creative service. I hope our students will grow into persons who value truth, foster harmony, care for environment, and work for a more just and humane society.

This magazine reflects the energy, imagination, and achievements of the students and staff of the school. May it inspire everyone to continue striving for excellence with humility and generosity.

I congratulate the editorial team, contributors, teachers, and students who have worked diligently to bring out this publication. May Xavier School, Gamharia continue to grow as a centre of learning, character formation, and hope for the future.

With my prayerful best wishes to all

Secretary's Message

Dear students, parents, and staff of Xavier School
I am writing this message with immense joy and a profound gratitude for our Xavier School Magazine 2026. The school magazine is a mirror that reflects the ethos, creativity, and intellectual vibrancy of the institution. It is a platform for the young minds to express their thought, showcase their talents, and celebrate their achievements.

This year has been a remarkable journey, a testament to resilience and excellence. Our students have demonstrated excellence in academics, in cultural activities and in annual sports. Certainly, their enthusiasm, determination, and spirit of curiosity continue to inspire us all. To our teachers, I acknowledge with gratitude the relentless efforts of our dedicated and hardworking teachers, whose guidance and commitment have been instrumental in nurturing the potential of every student.

Dear parents, my sincere gratitude to you for your constant support and cooperation, which strengthens the foundation of our educational community. Your unwavering support has been the wind beneath our wings.

And to our students, you are the heartbeat of this institution. As we turn these pages filled with your artwork, poems, stories, and reports, remember: every achievement is a step towards not only knowledge but also critical thinking, creativity, and strong values. I encourage each one of you to make the most of the opportunities provided, to dream big, and to work with perseverance and integrity. Let this magazine serve as a source of inspiration and a testament to your capabilities. Let us continue to uphold the values and traditions of our institution while striving for greater heights of excellence.

With warmest regards and prayers for peace

From the Principal's desk

Dear Students, Parents, Staff and all our stakeholders,
Greetings from Xavier School, Gamharia!

Come 20th April, 2027 our school will be completing 15 years of its existence! When I look around and cherish my experience as the fourth principal of this school I am indeed overwhelmed at the pace with which the school has developed so far. When the Governing Board of our parent body Jamshedpur Jesuit Society decided to open a school with our charism of 'reaching out to the unreached' on 20th August, 2011 the present location was found to be suitable with a semi-rural hinterland where children did not have access to good education.

When the Jesuits arrived here and acquired this expanse of barren land no one then thought that this semi-desert could turn out to be a flourishing oasis. It all started with a humble building of our Junior section in 2012 and later in 2017 we shifted the Senior section to the new building. It gives us immense joy and satisfaction when we see our students coming from the poor backgrounds and who are mostly first generation learners doing so well in academics as well as other co-curricular and extra-curricular activities.

However, we have a long way to travel and we cannot remain complacent that will lead to stagnation. 'No tolerance for failure is our motto' and therefore our teachers have taken this as a challenge and make special efforts to pay attention to the weaker students through monitoring their progress and remedial classes. We discourage parents to send their wards for tuitions and encourage them to cultivate a habit of self-study that ultimately will stand in good stead for their future.

Your continuous encouragement, cooperation and support that give us that added impetus to strive for Magis that fuel us to go for that insatiable possibility – 'Good is not good enough when better is possible and the best is within our reach'.

May God bless all of us to strive for the best!

Fr. Sebastian Puthenpura, SJ
Principal

Vice principal's message

"You don't have to be great to start, but you have to start to be great." Education is not merely a pathway to a career; it is the foundation for a meaningful life. We aim to instil in our students a strong sense of integrity, empathy, and responsibility, guided by our school motto.

Our goal is to equip our children with higher-order thinking skills that empower them to navigate complexity with confidence and wisdom, to question intelligently, to reason logically, and to speak thoughtfully.

A day in our school starts with prayer, which helps to calm the mind, encourage mindfulness, and promote reflection. Our students are encouraged to be inclusive and globally aware. Through daily interactions, thoughtful dialogue, and collaborative learning experiences, we create an environment where mutual respect is non-negotiable and diversity is celebrated.

We stress the importance of understanding perspectives, adjusting to challenges, and standing up for what is right, even when it is not easy. At the heart of our philosophy is the unwavering belief that "the child is supreme." This guiding principle ensures that every decision, every activity, and every moment is centred around the best interests of our students.

In everything we do, our vision remains clear: to shape versatile individuals who are not only academically accomplished, but also emotionally sound, socially responsible, and ready to contribute meaningfully to the world.

Let us together build a future where our children don't just succeed; they lead with purpose and live with compassion and empathy.

Vice principal's message

Dear Students and Respected Parents,

With immense joy and gratitude, I extend my warm greetings of grace and peace to each one of you. It is with a heart full of gratitude to God that I share this message with our beloved school family. Our institution is not only a place of academic learning, but also a sacred space where faith, values, and character are nurtured every day.

Dear students, always remember that you are capable of achieving great things. Believe in yourself even when the journey seems challenging. Success does not come from never failing, but from rising every time you fall. Let curiosity guide your learning, kindness shape your actions, and perseverance fuel your efforts. Each day is a new opportunity to grow wiser, stronger, and better than yesterday.

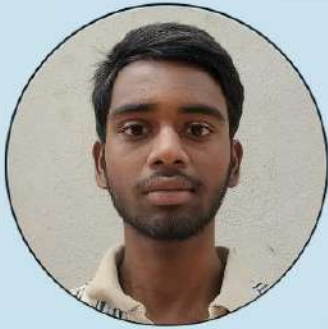

To our dear parents, thank you for entrusting your precious children to our care. We sincerely thank you for your constant trust, support, and partnership. Your encouragement at home, combined with guidance at school, creates a strong foundation for lifelong learning and good character.

Dear teachers, parents, and students, let us continue to work together to help our children become compassionate, responsible, and confident leaders who shine not only with knowledge, but also with integrity and humility.

Wishing all our students a future filled with purpose, courage, and endless possibilities.

**With prayers and blessings,
Sr. Sabitha,
Vice principal (Junior section)**

JYOTI UNIT

The JYOTI Unit of Xavier School, Gamharia, continues to shine as a beacon of service, leadership, and youthful enthusiasm. Rooted in the values of compassion and responsibility, the unit provides students with a platform to grow not only as individuals but also as socially conscious citizens committed to making a difference.

This year, the unit actively upheld its spirit of service through the initiative “Joy of Giving.” In this noble effort, students came together to extend a helping hand to underprivileged children by donating essential items. A total of 30 cartons of eatables and stationery were collected and distributed, bringing smiles and hope to many young lives. This initiative truly reflected the core value of sharing and caring, inspiring students to look beyond themselves and contribute to society.

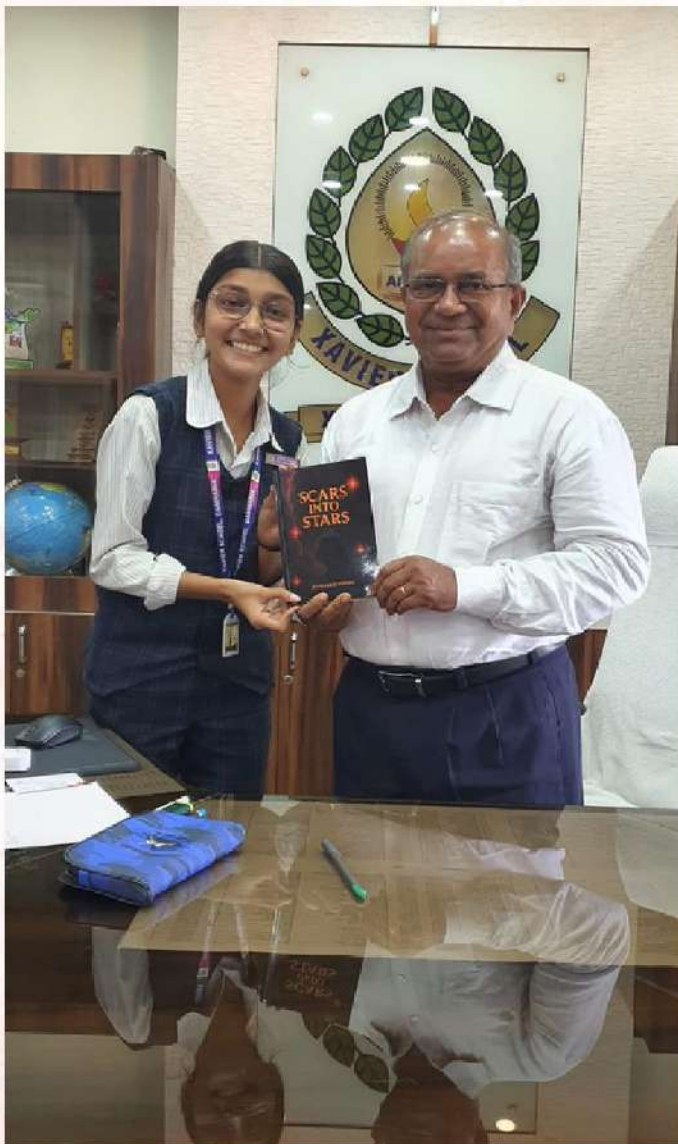

This achievement stands as a testament to the dedication, creativity, and collaborative spirit of our young Jyotians.

Guided by its vision to nurture responsible and compassionate leaders, and driven by its mission to promote fellowship, leadership, and service, the JYOTI Unit continues to inspire students to be the light that illuminates the path for others.

A Proud Addition to her Journey

We are proud to share that Divyanshi, a talented student of our school, has achieved yet another milestone with the publication of her second book. Her dedication, creativity, and passion for writing continue to inspire everyone around her. This remarkable achievement is truly another feather in her hat and a moment of pride for our entire school community.

Reading our old chats like they are poem...

~ Divyanshi Mishra

I read our old chats
the way people read poetry...
slowly,
carefully,
as if one wrong breath might make the meaning
disappear.

Every "good morning"
was a metaphor I didn't understand then,
every laugh a rhyme scheme
I thought would never end.
Your typing dots were pauses,
dramatic ones...
the kind poets use
before breaking a reader's heart.
I underline sentences in my mind:
"I'm here."

"I won't leave."
Free verse promises,
never meant to be published in forever.
Some lines still hit hard,
some feel edited now,
like you rewrote yourself
and forgot to tell me.
I notice the enjambment...
how love spilled into silence,
how replies grew shorter,
how feelings were left
hanging mid-line.

These chats don't talk back anymore.
They just exist...
like poems written by someone
who no longer recognizes the reader.

Yet I return,
again and again,
because even broken poetry
feels warmer
than empty pages.
And maybe that's the saddest part..
not that you left,
but that you once wrote me
so beautifully.

SIKKIM EDUCATIONAL TOUR

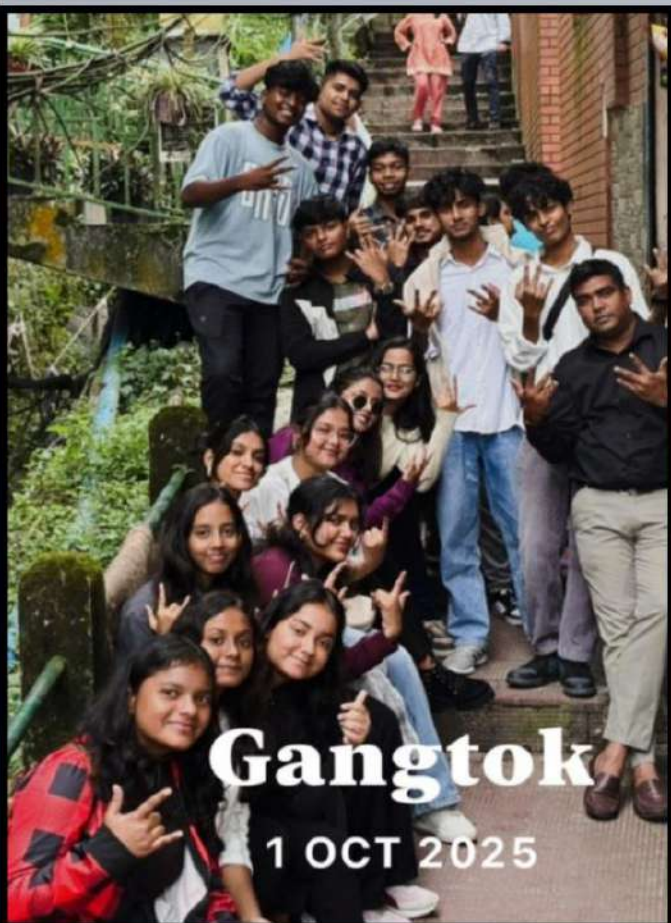

Session 2025 –2026

Learning Beyond the Classroom

An educational trip provides students with a unique window into the world, bridging the gap between textbook theories and real-world experiences. Following this spirit of exploration, the students of Standard XI embarked on an enriching journey to Sikkim from 27th September to 3rd October 2025.

Nestled in the heart of the Eastern Himalayas, Gangtok offers a breathtaking blend of serene landscapes, spiritual heritage, and vibrant local life. This tour offers a unique opportunity to witness the majesty of Mount Kanchenjunga, the world's third-highest peak, from panoramic vantage points like Tashi Viewpoint and Ganesh Tok.

The itinerary balances historical significance with natural beauty, featuring a visit to the strategic Nathula Pass on the Indo-China border—a legendary corridor of the ancient Silk Route. We explored the high-altitude ecosystem of the crystal-clear Changu Lake and honored their memory at the revered Baba Mandir. From the spiritual serenity of the Enchey Monastery to the lush Bakthang Waterfalls, this trip provided an unforgettable learning experience in the heart of the mountains.

HUNCH

Our school took part by storm at Hunch 2K25, an interschool competition held on August 8th. From the high-speed innovation of Track Titan and Neovolt to the creative mastery in Sutr and Swarsrijan, we brought home the medals and glory!

Xavier School, Gamharia proudly participated in Rhapsody 2025, the prestigious inter-school cultural fest hosted by Loyola School, Bistupur.

With **17 schools** competing in a range of dynamic on-stage and off-stage events, the festival celebrated the theme “**Sports – The Spirit of Life.**” The event was inaugurated by renowned Indian cricketer and Loyola alumnus **Varun Aaron**, adding great excitement to the occasion.

Our talented students showcased remarkable creativity, confidence, and team spirit across multiple competitions — earning numerous prizes and ultimately securing the position of **Overall Runners-Up** among all participating schools. It was a moment of immense pride to see our students excel and represent our institution with passion and excellence.

STUDENT COUNCIL ELECTION

Our school successfully conducted the Student Council Election on **5th May, 2025**, creating an atmosphere of excitement, responsibility, and democratic participation among students. This event was organized to encourage leadership, build confidence, and give students a platform to express their ideas and contribute to school development.

The primary motive behind conducting the election was to instill democratic values, promote teamwork, and allow students to actively participate in decision-making processes. It also helped students understand the importance of voting and choosing the right representatives.

Students from classes IX to XII participated enthusiastically in the voting process, while candidates from classes XI and XII stood as nominees for various posts. Before the election, all nominees confidently presented their ideas, plans, and visions for the school in front of the students. Their speeches highlighted their leadership qualities and commitment to making positive changes.

After a fair and organized voting process, students selected their representatives. The elected council members for the session are:

- President: **Ayush Kumar**
- Vice President: **Divyanshi Mishra**
- Secretary: **Satyam Gorai**
- Joint Secretary: **Lucky Mardi**

The event was a great success and reflected the spirit of unity, responsibility, and leadership among students. It marked an important step in nurturing future leaders and responsible citizens.

INVESTITURE CEREMONY

The investiture Ceremony for the academic year **2025–26** was held on **7th May 2025**, marking a proud and memorable day for our school. The ceremony symbolised the formal installation of the newly elected members of the Student Council, who pledged to uphold the values and traditions of the institution with sincerity and dedication.

The event witnessed **Piya Das**, the outgoing President, gracefully handing over the mantle of leadership to **Ayush Kumar**, the newly elected President. Alongside him, **Divyanshi Mishra** took charge as the Vice President, **Satyam Gorai** as the Secretary, and **Lucky Mardi** as the Joint Secretary.

With renewed enthusiasm and commitment, the new council members vowed to work together for the betterment of the school and to inspire their peers through teamwork, discipline, and responsibility. The ceremony was a true celebration of leadership and the spirit of service.

Prize Nite: A Celebration of Excellence

Prize Nite is one of the most anticipated events of the school year, where talent meets recognition. It is a moment to honour the hard work, dedication, and achievements of students in academics, sports, and co-curricular activities. The evening is filled with joy, pride, and inspiration, as awardees walk the stage to the applause of their peers, teachers, and parents. It truly reflects the spirit of excellence that defines our school.

The glow of success on Prize Nite is not just about awards—it's about the journey behind each achievement. Late-night study sessions, curious questions in classrooms, and the constant push to do better all come together on this special evening. It reminds every student that hard work, consistency, and passion never go unnoticed.

"On this night of honour, we celebrate not just winners, but the spirit of striving."

BLOOD DONATION CAMP

10th May 2025

A Blood Donation Camp was successfully organized on ***10th May 2025*** at Xavier School Gamharia by the Xavier Alumni Association Gamharia (XAAG). The camp was conducted with the noble aim of spreading awareness about blood donation and helping people in need.

A team of doctors and staff members from the blood bank visited the school and carried out the donation process smoothly under proper medical supervision. The camp witnessed active participation from alumni members, teachers, parents, and well-wishers.

A total of 24 units of blood were collected during the camp. The event was appreciated by everyone for its social cause and successful management.

Father Sebastian Puthenpura S.J , Principal of Xavier School Gamharia encouraged such humanitarian activities and appreciated the efforts of XAAG members and all the donors who came forward for this noble cause.

The programme was conducted in a disciplined and organized manner, promoting the message that **"Blood Donation is the Gift of Life."**

MY WINDOW

I have a small window in my room,
Which takes me to another world very soon.

It was morning; I woke up and yawned.

“Good morning!” greeted the sun
As on my face it shone.

Through the window came a straight,
bright beam,

Inviting me to jump in and go to him.

It was evening at my window.

“Good evening!” said the wind
As it crept through my hair,
Waving at me to step on.

A flying cloud came along
To give me a ride amongst the birds as an
odd one out.

It was night; I saw the moon far, far away.

“Good night!” it whispered in my ears,
Putting me on the swing of its crescent.

With the winds moving, I gazed at the
stars as I lay.

It was time to sleep, so I better go to bed!

A LITTLE STAR'S WISH

One quiet night beneath the sky so
wide,

I saw a little shining star with pride.

It twinkled softly and said to me,
“Dream big and be the best you can
be.”

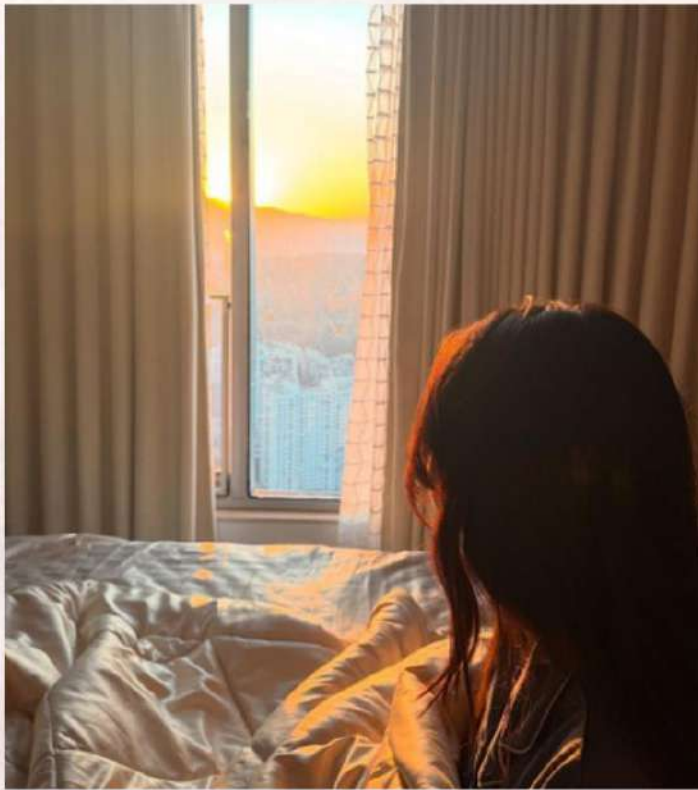

“Shine with kindness, bright and true,
Let hope and courage guide you too.
Learn new things with joyful cheer,
And help each friend who may be
near.”

“Be honest, brave, and always try,
Like a bright star glowing in the sky.”

The star then sparkled and flew afar,
Leaving magic like a glowing star.

WAKE UP !

**Alarm rings loud—beep beep beep!
I close my eyes and go to sleep.
I hit the snooze, once, twice, thrice
The alarm is clearly mad at me!**

**Sun peeks in and says, “Hello!”
I pull the blanket down real low.
Birds are singing, full of cheer,
But my pillow is my best friend here.**

**Clock keeps shouting, “You’re late,
wake up!”
My dream says, “Stay just one more
nap.”
I stretch, I yawn, I finally rise,
With sleepy steps and half-shut eyes.**

**I wake up slow, but that’s okay,
I laugh and start a brand-new day.
With messy hair and hopeful cheer,
I’m awake at last—almost clear !**

THE WORLD I WISH TO SEE

**I wish to see a world so bright,
Filled with love and shining light.
No more hate and no more fear,
Only kind hearts everywhere.**

**Blue skies high and air so clean,
Grass so fresh and trees so green.
Rivers clear that softly flow,
Flowers bright in every row.**

**No child sad and left to cry,
Every dream allowed to fly.
People help in every way,
Choosing good things every day.**

**Peace and hope in every land,
Friends who care and understand.
This is the world for you and me,
Happy, safe, and truly free.**

CLASSMATE FRIENDS

In a room where chalk dust fills the air,
And lessons float we hardly care,
We sit side by side, day after day,
Learning more than books can say.
We share our lunches, secrets, fears,
Our dreams of future, hopes, and tears.
A smile passed, a note once sent,
Moments we never knew were spent.
We race through halls, we fear the tests,
We try our best, we stress, we rest.
Some days we argue, some we pretend,

But somehow still we always mend.
Through sleepy mornings, noisy bells,
Through stories only our class tells,
You turn routine to something bright,
A normal day to pure delight.
One day these desks will be left behind,
Just echoes of a simpler time.
Yet in my heart, no matter when,
Will live the love for classmate friends

WHEN I SEE YOU I SMILE

**Oh I wish that you always smile.
When I fell into this world of hate and
guile,
I screamed in pain and cried for a while.
But oh, I see your enchanting face from

**And as I see you, I smile.
How graceful is the word "mother",
For our souls are intertwined with each
other.**

**Oh my dear magician, even when you

In my little world, you came as an
enchantress.**

FINDING OUR OWN "WHY"

We walk through days of questions,
 Not knowing where to start.
 Searching for a small reason,
 That speaks to the heart.

Sometimes the road feels endless,
 Sometimes we lose our way,
 But every step that we take,
 Teaches us something each day.

Slowly we start to understand,
 What truly makes us try –
 Not what the world expects from us,
 But our own quiet "why".

PAIN IS TEMPORARY BUT PRIDE IS FOREVER

There are moments in our life when we feel tired, exhausted and irritated.
our minds feel tired, our brains stop and our hearts ask us,
"why should we countinue"?

But there is an answer within us that is due to our mind, "the light that is
lit inside us."

The answer is just because I want to be Successful, I want to make my
parents proud.

Pain is the practising of mathematics again and again to keep the hands
confident and quick while doing it in the examination but pride is the
marks that you get in the report card, and the happiness we feel when we
realize that our hardwork is paid off.

It is said that temporary struggles build permanent pride.

When we think about great acheivers we may see them just because of
their success not their countinued hardwork. Another Common doubt is
Why should I practice again, when I really made so many mistakes? But
every mistake is a small teacher it makes us understand the problem
better.

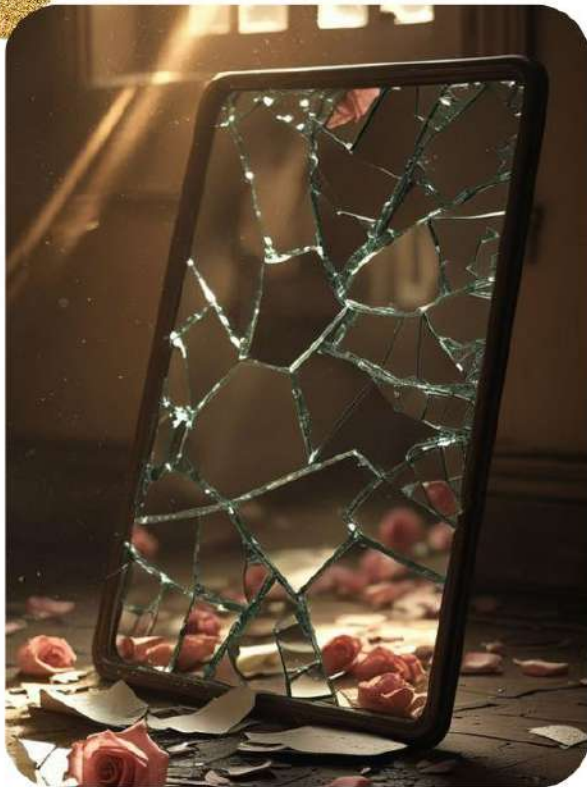

We wonder if it's worth the struggle?

Yes, because the happiness you feel when you see good marks on your
report card or hear your name being appreciated is something that stays
in your heart for a long time.

The late nights, the confusion and hard practice are only temporary.
But knowing the pride of working hard Knowing I really did that last
forever long.

That's why it is called
Pain may slow my steps today,
But I will still move on.
The road is hard and full of storms,
Yet I choose to stay strong.
Because one day the struggle will fade,
And the pride will remain forever.

BEHIND THE BALANCE SHEETS : THE UNTOLD EMOTIONS OF A COMMERCE STUDENT

When people hear the word Commerce, they often think of numbers,
accounts, business, profit, and loss.

They imagine calculators, balance sheets, and long formulas.

But what they don't see...

are the emotions hidden behind those balance sheets.

Being a commerce student is not just about calculating profits –
sometimes, it feels like we are calculating our own worth.

When others talk about science being “tough” or arts being “creative,”
commerce quietly stands in between – misunderstood.

People think we chose it because it was “easy.”

But they don't see the late nights spent balancing accounts that just
refuse to tally...

or the silent frustration when one small mistake ruins the entire working.

One mark difference can change everything.

One entry wrong – and the whole answer collapses.

Just like life.

We learn about profit and loss in books,
but slowly, we start understanding profit and loss in emotions too.

Profit – when our hard work reflects in good marks.

Loss – when despite trying our best, things don't go our way.

We study business studies,
but no one teaches us how to manage the business of expectations –
parents' hopes, society's comparisons, our own fear of failure.

We calculate interest,
but no one calculates the interest of our anxiety that keeps increasing
before exams.

We prepare for future careers – CA, CS, MBA, entrepreneur –
big dreams written in small notebooks.

Dreams that sometimes feel heavy on our shoulders.

Yet, we continue.

Because commerce students are not just number people.

We are dreamers who want to build companies,
leaders who want to create opportunities,
risk-takers who believe in growth.

Behind every ledger is a student trying to prove themselves.

Behind every financial statement is a heart that wants appreciation.

And maybe, just maybe –

we are not just learning how to manage money.

We are learning how to manage life.

NEVER UNDERESTIMATE YOURSELF

Riya loved drawing more than anything else. Every day after school, she sat by the window and sketched pictures of trees, birds, and people passing by. One day, during an art class, her favourite pencil fell from her desk and its tip broke. Her classmates laughed and told her to take a new one.

Riya looked at the broken pencil and felt sad, but she did not throw it away. She sharpened it carefully and continued drawing. Though the pencil was shorter, it moved smoothly on the paper. Slowly, a beautiful picture of a smiling child appeared on the page.

When the teacher saw Riya's drawing, she praised her and put it on the notice board. The class fell silent. The same children who had laughed now admired her work. Riya smiled and looked at her small pencil. She had learned that even when something seems broken or weak, it can still create something wonderful if we do not give up.
Moral: Never underestimate yourself or give up too soon.

I SURVIVED BUT AT WHAT COST ??

My mother never asked me why my eyes

and be strong.

My father noticed me only when I made a

Never when I needed him.

My parents didn't teach me love I learned it
by the silence.

I learn to hug myself when no one else did.
To whisper, it was okay when the house was
too loud.

I wiped my own tears when the words cut so
deep.

I learned how to stay quite how to disappear
how to smile so no one would ask questions.

I held my own hand when the world felt too
heavy.

I celebrated my small wins alone, cried
alone, Grew up to early.

I taught myself how to survive in a house
that never felt like home.

THE UNSEEN BEAUTY

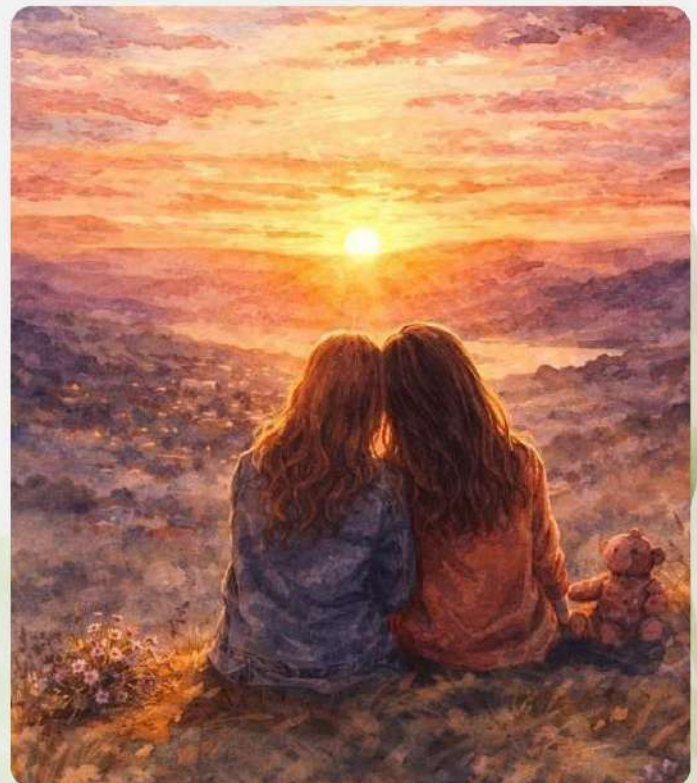

The moon does not shout— she waits.
 Pinned to the dark like a held breath,
 a secret the sky refuses to confess.
 She watches lovers pretend they are brave,
 watches promises loosen in the quiet,
 watches hearts become honest
 only when the world is asleep.
 She is made of distance,
 yet feels closer than most people ever do.
 A pale witness to longing,
 to prayers whispered instead of spoken.
 Some nights she is whole,
 heavy with everything unsaid.
 Some nights she is broken,
 and still beautiful for surviving it.
 Tell me—
 how does she glow so softly
 while carrying centuries of ache?
 Perhaps the moon knows this truth:
 even in darkness,
 you do not have to burn
 to be seen.

Breaking Stereotypes: Girls Can Do It All

For a long time, society has limited girls with stereotypes that define what they can or cannot do. Girls were often seen as weak or suitable only for certain roles. Today, girls are breaking these barriers and proving that they can achieve anything.

From education and sports to science and leadership, girls are excelling in every field. Education and encouragement give girls the confidence to dream big and follow their passions. When given equal opportunities, they perform just as well as anyone else.

Although challenges still exist, girls continue to rise with determination and strength. Breaking stereotypes is not just about success; it is about freedom—the freedom to choose, to grow, and to be themselves.

Girls can do it all, and when they do, they create a stronger and better society.

NOW IS THE YOUNGEST YOU'LL EVER BE

If the best time to plant a tree was ten years ago, the second best time is now.”
And remember—this is the youngest you will ever be.

Yet we keep waiting. Waiting to be ready. Waiting for confidence, clarity, or the perfect moment. In that waiting, time slips away and youth quietly turns into regret. We look back and wish we had started earlier, forgetting that one day we will look back at today and wish the same. Time does not pause for hesitation; it only responds to action. Starting now may feel late, but starting later will feel worse. Action today costs effort.

Inaction costs years.
You missed yesterday.
Tomorrow isn't promised.
But today is still yours.
Plant the tree.
Begin now.

THE NIGHT BEFORE THE PHYSICS FINAL EXAM

The house was dead quiet, except for the low hum of the fridge and the sound of my pen scratching against the paper. It was 2:00 AM. In just five hours, I had my 9th-grade Physics final. I still had forty pages left of a textbook I hadn't looked at all year.

My desk lamp felt like a small, bright sun in the dark room. My eyes were stinging and felt like they were full of sand.

"Okay," I whispered, my voice sounding shaky. "Force equals mass times acceleration. $F = ma$. Just remember the formula, and I can make up the rest. I have to."

I reached for my energy drink, but my hand was trembling so much I almost knocked it over. I stared at a drawing of a lever in the book, but the lines started to blur together. I couldn't tell the difference between the parts of the machine and my own feeling of panic.

"I can do this," I lied to myself. "I did it for History. I did it for Math." But the truth hit me hard: I hadn't actually learned anything. I had just memorized words I didn't understand and wrote them down on the test, only to forget them the second I walked out of the room. Now, looking at these science laws, I felt completely empty.

Suddenly, I heard the door creak. I froze and covered my notes with my arms like I was hiding something bad. My father was standing there in the doorway. He didn't look angry; he just looked sad and tired.

"Still awake?" he asked softly.

"Just reviewing," I said, my heart thumping in my chest. "I want to be ready." He walked over and put his hand on my shoulder. I flinched, scared that he would see how much I was struggling.

"You've been 'reviewing' every night this week," he said. "But you look exhausted. You're trying to build a whole house in one day. You might get the roof on, but the floor underneath is missing."

"I have to pass, Dad. I don't have time to build the floor right now." He sat down in a chair next to me. "That's the problem with time. You can't trick it. You can cram a year of facts into one night, but you can't grow or understand things in one night. You're passing the test, but you're failing yourself."

I looked down at my book. A tear fell onto the page, right on top of a science formula. "I'm so scared I'll forget everything as soon as I see the first question."

"Because you're not learning to know it," he whispered. "You're learning just to survive the day. And that's no way to live."

I didn't finish those forty pages. I went to sleep. I didn't get a perfect grade the next day, either. I struggled with the questions, and I could feel exactly what I didn't know. But for the first time that week, I wasn't pretending anymore.

FAITH IN YOUR OWN BECOMING

Love yourself as you are.
Be yourself, the way you are. People will come and go, but life will not change its flow.

Nothing in life is permanent. That's why love for yourself should be constant. No one is going to give you what you want. Struggle for your dreams and let yourself win.

People will try to create obstacles, but you should chase your dreams as much as possible. If you are afraid of your rivals, it means that you are not confident in your own potential.

The dreams you have seen with open eyes—now it is time to fulfill them. Every dream may not come true, but your hard work and potential can make it happen for you.

LAST BENCH STUDENTS

Last bench students are often judged before they are understood. Many people assume that sitting at the back means being careless, but this is a very shallow conclusion. In reality, last benchers simply prefer independence over constant supervision.

While front bench students are busy impressing teachers with perfect notes, last bench students are busy observing, thinking, and learning in their own way. They may not always follow the traditional classroom style, but they possess creativity, confidence, and practical intelligence that textbooks cannot teach.

Teachers sometimes see them as distracted, yet they are often the ones who bring energy, humor, and unity to the classroom. They support friends, lighten stressful moments, and make school life memorable.

Academically, they may struggle at times, but their real strength lies in adaptability and problem-solving. Last bench students remind us that success is not defined by where you sit, but by how you think and act.

The Day the Sky Sent a Letter

On an ordinary Monday morning, when the school bell rang and the pigeons fluttered off the old banyan tree, Aarav found something extraordinary on his desk—a letter sealed with a silver star.

There was no name written on it, except one word in glowing ink: *Dreamer.* Aarav looked around. His classmates were busy talking, laughing, and copying homework at the last minute. No one seemed to notice the letter. With trembling fingers, he opened it.

Inside was a single sentence:

“Tonight, look at the sky at exactly 9:09 p.m.”

That was all.

The whole day, Aarav could think of nothing else. Who sent it? Was it a prank? Or something magical? When the clock finally struck 9:09 that night, he rushed to the terrace of his house.

The sky looked normal at first—quiet and full of stars. Then suddenly, one star began to shine brighter than the rest. It shimmered, flickered, and slowly traced words across the darkness like a pen writing on paper.

****“The world belongs to those who dare to imagine.”****

Aarav stood frozen. The glowing star continued:

“You have ideas hidden inside you. Don’t ignore them. Build them. Share them. Believe in them.”

And just like that, the sky returned to normal.

From that night on, Aarav changed. He began writing stories he once kept secret. He built small science models from scrap materials. He asked questions in class instead of staying silent. Sometimes people laughed. Sometimes things failed. But he remembered the sky’s message.

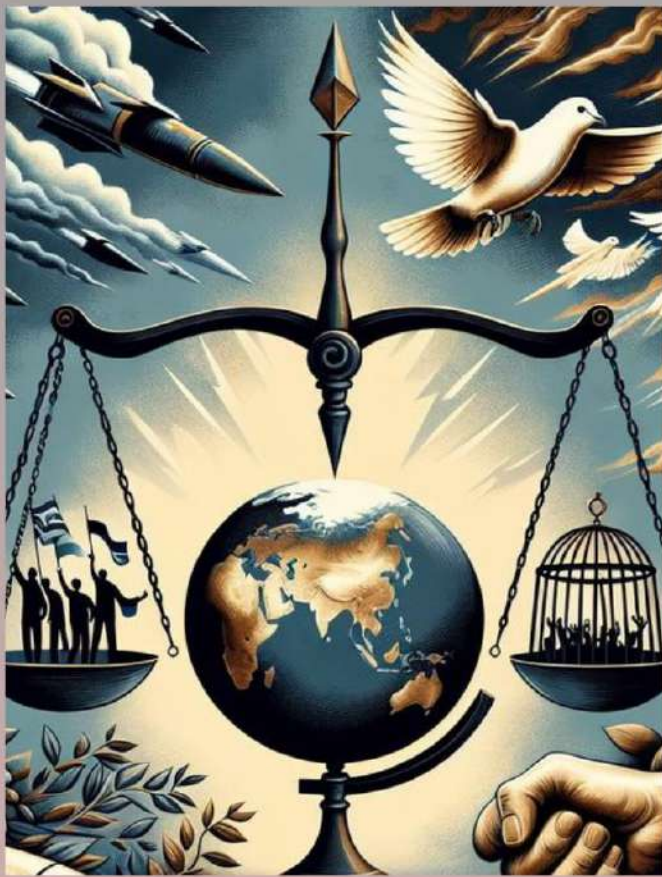

Years later, Aarav became an inventor known for creating eco-friendly machines that helped villages save water and electricity. When reporters asked him where his inspiration came from, he simply smiled and said, “The sky once reminded me that imagination is power.”

No one ever saw the silver star letter again. But sometimes, on quiet nights, Aarav would look up and whisper, “Thank you.”

And somewhere among the stars, one light always seemed to glow a little brighter.

****Moral:**** Never underestimate your imagination. It may be the beginning of something extraordinary.

HOPE

When life becomes labyrinthine,
And vision grows blurred,
When the heart feels heavy,
And the pain is difficult to bury —

Just close your eyes for a while.
Try to feel the Omnipresent,
The Omniscient, the Omnipotent.

He did not bring you this far
Only to leave you behind.

Just hold your breath,
Muster up the courage,
And keep moving forward.

He is the nurturer.
Surrender yourself to him,
And rise again.

LAWS THAT SHAPE OUR WORLD

Motion begins with speed and pace,
Distance, time keep steady space.
Velocity guides the path we take,
Acceleration shows the change we make.

Force defines the laws we learn,
Newton's rules at every turn.
Action meets reaction true,
Balance shapes what bodies do.

Work and energy walk as one,
Power measures what is done.
From stored potential, kinetic free,
Energy flows eternally.

Light reflects, light refracts,
Mirrors shape the facts we act.
Lenses bend the rays just right,
Forming images clear and bright.

Electric current lights the way,
Voltage pushes, resistors stay.
Ohm explains the relation clear,
Circuits bring technology near.

Magnetic fields in motion grow,
Electromagnetism's flow.
From generators to motors spin,
Science drives the world we're in.

CHEMISTRY BEYOND THE BLACKBOARD

As a chemistry teacher, I often hear this question in class – "Ma'am, where will we ever use this?"

I usually smile, because the answer is everywhere.....even before the question finishes. When you open your lunch box and complain that the chips are soggy – it's chemistry.

When your mother adds salt to raw mangoes for pickling – osmosis at work.

When you light a candle during a power cut – there goes a perfect combustion reaction !

Chemistry is not limited to formulas like H_2O or equations on the board. It lives in the air we breathe, the food we eat, and even in the emotions we feel.

Today chemistry is doing wonders – creating eco-friendly materials. But in my classroom, the real discovery is different. It is that moment when a student stops memorizing and starts understanding. Because chemistry is not about mugging up reactions – it is about observing change. Why iron rusts, why milk turns sour, why some reactions release heat while others absorb it..... these are stories of nature. For me, chemistry is more than a subject. It is a way of seeing the world with curiosity and logic. And even if one student begins to notice chemistry beyond the blackboard, then the lesson has truly been successful. And honestly, if students remember one thing from my class, I hope it is this – Chemistry is not difficult..... it is just a little misunderstood.

JOURNEY OF HOPE

Life is a long and silent road,
With dreams we carry as our load.
Some days are bright with shining sun,
Some days feel hard and never fun.
We walk with hope inside our heart,
Not knowing where we really start.
The past stay behind like fading light,
The future waits, still out of sight.
I have seen tears and small mistakes,
And pain that slowly courage makes.
Sometimes I fall, sometimes I fear,
But still I move, step by step here.
People come and people go,
Some stay for long, some we don't know.
Few teach love, few teach pain,
Few leave memories like soft rain.
Life is not easy, I understand,
Still I try my best to stand.
Because every scar, every fight,
Makes my tomorrow little bright.

SUCCESS: ACHIEVEMENT OR RESPONSIBILITY

Harshit Sharma
XI'A'

In today's world, success is often measured by wealth, power, and social status. Society glorifies those who own luxury cars, expensive houses, or hold influential positions. However, this narrow definition of success ignores values like integrity, compassion, and responsibility towards others. True success should not be limited to personal achievement alone; it should also include the impact one has on society.

Earlier, a successful person was seen as someone with strong character, who contributed to the welfare of others. Doctors who treated the poor, teachers who shaped generations, and leaders who worked selflessly were respected. Today, many role models gain admiration simply for making money, regardless of how it is earned. This shift has confused young minds and created a belief that ends justify the means.

Real success lies in balance. Achievements are important, but they lose meaning if they are built on selfishness. A person who uplifts others while progressing in life achieves lasting respect, not temporary fame. Therefore, success should be redefined as a combination of personal growth and social responsibility. Only then can it truly benefit both the individual and society.

मेरे खिलौने

खिलौने मेरे प्यारे-प्यारे,
देखो इनको, ये सब न्यारे।
जब भी मैं इनके पास हूँ आता,
मेरा मन खुश हो सा जाता।
इन्हें हटाना, इन्हें सजाना,
तोड़-जोड़कर इन्हें बनाना।
इनके साथ मज़ा है आता,
मेरे मन को बहुत है भाता।
बड़े-बड़े, छोटे और बौने,
मेरे दोस्त हैं मेरे खिलौने।

मुल्यवान समय

समय का जो रखता ध्यान,
जग में होता उसका मान।

समय को जो खोता है,
बाद में रोता रहता है।

समय कभी नहीं रुकता है,
चलता है, बस चलता है।

सफल वही यहाँ रहता है,
समय के साथ जो चलता है।

हमारा देश

मेरा देश है सबसे प्यारा,
सबका है यह एक सहारा।
नदियाँ, पहाड़, खेत हरे,
सोना उगले धरती सारे।

यहाँ रहते हम सब भाई,
हिंदू, मुस्लिम, सिख, ईसाई।
मिल-जुल कर हम रहते हैं,
एक-दूजे से कहते हैं।

सच, मेहनत, और प्रेम सिखाए,
देश हमें आगे बढ़ाए।
भारत माँ पर गर्व हमें,
यही है सपना हर दम में।

"मेरे पापा की यादें"

पापा तेरी याद मुझको सता रही है
तूने जो सिखाया वह मुझको बचा रही है
हर मुश्किलों में भी वह मुझको लड़ना बता रही है
नन्हे नन्हे पैरों को जो तूने सिखाया चलना आज वही मुझको राह दिखा रही है
पापा तेरी याद मुझको सता रही है
कुछ ना बोलकर भी तूने चेहरे से पहचान लिया
ना चाहने पर भी मुझको वह चीज दिला दिया
खुद की चाहत दरकिनार कर मुझको सबकुछ ला दिया
मेरी शैतानियों को देखकर भी ना देखा
आज वह बीता हुआ पल मुझको याद आ रही है
पापा तेरी याद मुझको सता रही है।
आज दुनिया के भीड़ भाड़ में आपकी सिखलाई काम आ रही है
मैं कुछ बन भी ना पाऊं तो क्या, आपकी राह मुझे अच्छा इंसान बना रही है
दूर तुझसे रहकर भी पापा तेरी परछाई हूँ तेरी याद साथ सुला रही है
पापा तेरी याद मुझको सता रही है
ईश्वर का दूसरा रूप हो तुम एक नन्हे फरिश्ते का आसमान हो तुम तुम हो तो सारे अपने
हैं बाजार के सारे खिलौने अपने हैं पापा की सलामती से हर कली मुस्कुरा रही है
मेरे पापा की राह मुझे अच्छा इंसान बना रही है।
पापा तेरी याद मुझको सता रही है।
जब मैं बीमार हो जाती तुम सो नहीं पाते, मुझको नए कपड़े देते खुद पुराने से मन भाते
दूसरों से हमेशा मुझे सबसे ऊपर रखते
मेरी इच्छा पूरा न कर पाने पर खुद छुप कर आंसू बहाते
कुछ बोलकर भी कुछ ना बोल पाते, आज तुझसे दूर रहकर पापा तेरी याद मुझको
रूला रही है
पापा तेरी याद मुझको सता रही है
मुझको सता रही है.....।

देखो एक डाकिया आया ...

देखो एक डाकिया आया,
कंधे पर थैला लटकाया।
धूप हो या ठंडी छाया,
हर गली में कदम बढ़ाया।
उसके थैले में बंद हैं सपने,
अपनों के भेजे अनमोल अपने।
कहीं खुशी, कहीं इंतज़ार,
कहीं आँसू, कहीं प्यार।
किसी माँ की दुआ लाया है,
किसी बेटे का हाल लाया है।
किसी दोस्त की यादें सजी,
किसी बहन की राखी बँधी।
न मोबाइल, न ही कोई जाल,
फिर भी जोड़ता दिलों का हाल।
कागज़ पर लिखे शब्द सच्चे,
जो लगते हैं सबसे अच्छे।
आज भी जब डाकिया आता,
मन में उत्सव सा छा जाता।
देखो एक डाकिया आया,
रिश्तों का पैग़ाम लाया।

संवेदनशीलता

कुछ लोग अपनी भावनाएँ आसानी से व्यक्त कर देते हैं,
जबकि कुछ लोग हर छोटी बात को चुपचाप गहराई से महसूस करते हैं।
समाज में ऐसे कई व्यक्ति होते हैं जो दूसरों की भावनाओं, तकलीफों और परिस्थितियों को दिल से समझते हैं।

यह केवल एक विचार नहीं, बल्कि एक ऐसा एहसास है जिसे अनेक लोग अनुभव तो करते हैं, पर शब्दों में व्यक्त नहीं कर पाते।

आज की दुनिया में अक्सर यह सुनने को मिलता है —

“इतनी परवाह मत करो।”

“इतना भावुक होना ठीक नहीं।”

“आज के समय में इतना कौन सोचता है?”

ऐसे शब्द यह सोचने पर मजबूर कर देते हैं कि क्या वास्तव में संवेदनशील होना गलत है?
कई लोगों के लिए दूसरों की चिंता करना, किसी की उदासी महसूस कर लेना, या किसी की परेशानी को समझ लेना स्वाभाविक होता है।

लेकिन अक्सर यही स्वभाव लोगों को “हद से ज़्यादा” लगने लगता है।

शायद सबसे कठिन बात यह नहीं होती कि लोग समझ नहीं पाते,

बल्कि यह होती है कि लोग गलत समझ लेते हैं।

अक्सर ऐसा देखा जाता है कि जहाँ किसी व्यक्ति का इरादा सच्चा होता है, वहीं उसे गलत ठहरा दिया जाता है।

जहाँ भावनाएँ साफ़ होती हैं, वहीं परिस्थितियाँ, शब्द और धारणाएँ मिलकर ऐसी तस्वीर बना देती हैं
जहाँ सच्चाई भी सफ़ाई देने जैसी लगने लगती है।

असल दर्द गलती का नहीं होता,

बल्कि गलत समझने जाने का होता है।

क्योंकि अधिकतर संवेदनशील लोगों के मन में किसी को आहत करने या परेशान करने का विचार नहीं होता।

फिर भी, कई बार उनके व्यवहार को सही रूप में नहीं समझा जाता।

सच्चाई यह भी है कि अपेक्षाएँ इंसान को सबसे अधिक आहत करती हैं।

अजनबियों की बातें उतनी चोट नहीं पहुँचातीं, जितनी अपने लोगों की गलतफहमियाँ पहुँचाती हैं।

क्योंकि जहाँ अपनापन होता है, वहीं उम्मीदें भी होती हैं,

और जहाँ उम्मीदें होती हैं, वहीं टूटने का डर भी रहता है।

कई बार ऐसा महसूस होता है कि यदि कोई व्यक्ति अत्यधिक परवाह करे और पूरी सच्चाई से रिश्ते निभाए, तो लोग उसकी परवाह के आदी तो हो जाते हैं, लेकिन उसकी भावनाओं की गहराई को समझना छोड़ देते हैं।

यह कोई शिकायत नहीं, बल्कि जीवन का एक शांत और गहरा सत्य है।

फिर भी, एक बात हमेशा सच रहती है —

परवाह करना गलत नहीं हो सकता।

यदि दिल से महसूस करना, सच्चे इरादों के साथ जीना और बिना दिखावे के अपनापन रखना
“अत्यधिक” माना जाता है, तो यही संवेदनशीलता किसी व्यक्ति की सबसे सच्ची पहचान भी बन सकती है।

क्योंकि अंत में, गलत समझने जाने का दर्द वही सबसे गहराई से महसूस करता है,
जिसका दिल वास्तव में साफ़ होता है।

समुद्र का खज़ाना

नीले जल की गहराई में, छिपा अनोखा खज़ाना है,
मोती, शंख और मछलियों का सुंदर सा ठिकाना है।
लहरों की मधुर सरगम में, प्रकृति का तराना है,
हर एक बूँद में जीवन का प्यारा अफ़साना है।

रंग-बिरंगी मछलियाँ तैरें, जैसे सपनों की उड़ान,
कोरल रीफ़ और सीपियाँ गाएँ, प्रकृति का गुणगान।
विशाल व्हेल और नन्हे जीव, सबका है सम्मान,
समुद्र देता सबको आश्रय, करता सबका कल्याण।

सूरज की किरणें पड़तीं, जल में चमक उठे मोती,
लहरों की ताल पर नाचे, जलजीवों की टोली।
सीपी अपने आँचल में, छिपाए अमूल्य ज्योति,
समुद्र की गोद में बसती, अद्भुत सृष्टि अनोखी।

पर मानव की लापरवाही से, यह सौंदर्य रोता है,
प्लास्टिक और गंदगी से, इसका मन भी रोता है।।
प्रदूषण की काली छाया, जीवन को ढोता है,
निर्दोष जीवों का हर दिन संकट में होता है।

कटते जंगल, बढ़ता ताप, जल स्तर भी बढ़ता है,
बदलते मौसम का असर, हर प्राणी सहता है।
यदि हम अब भी न जागे, संकट और गहराता है,
समुद्र का यह अनमोल धन धीरे-धीरे घटता है।

आओ मिलकर प्रण लें हम, इसे स्वच्छ बनाएँगे,
समुद्र के इस अमूल्य खज़ाने को बचाएँगे।
प्रकृति की रक्षा करके, सच्चा धर्म निभाएँगे,
नीला सागर फिर मुस्क़ाए, ऐसा युग लाएँगे।

खुद से बातें

भीड़ में रहते हुए भी
कई बार अकेली सी हो जाती हूँ,
सब ठीक है कहने की आदत में
खुद से ही दूर चली जाती हूँ।

सपने आँखों में बहुत हैं,
पर डर उन्हें छू लेता है,
हर बार संभलने की कोशिश में
दिल थोड़ा और टूट जाता है।

रात की खामोशी पूछती है,
“क्या तू सच में ठीक है?”
और मेरे पास कोई जवाब नहीं होता,
बस आँखें चुपचाप भर जाती हैं।

कमज़ोर हूँ, ये मानती हूँ,
पर हार मानना नहीं जानती,
हर गिरने के बाद भी
खुद को उठाना पहचानती।

शायद यही मेरी पहचान है—
खुद से रोज़ बातें करना,
टूटकर भी खुद को समझाना
और फिर से चल पड़ना।

मेरी प्यारी मां

चाँद भी तुझसे रौशनी माँगे,
तेरी झलक से रातें जागे।
तू मुस्काए तो अम्बर चमके,
तेरे बिना सब सूना लागे।
तेरी बातों में मिठास ऐसी,
जैसे सर्द हवा में हो धूप जैसी।
तेरे नयन—शबनम से प्याले,
हर लम्हा तुझपे जान निछावें।
जुल्फें तेरी जैसे काली घटा,
छुएं जो रूह, तो मिट जाए घटा।
हर कदम पर फूल बिछे हों जैसे,
तेरी चाल भी कोई कविता जैसे।
तू चाँद नहीं, पर उससे कम भी नहीं,
उसके पास तो बस चमक है कहीं।
पर तेरे अंदर रौशनी भी है, सुकून भी है,
और दिल में बसी वो मोहब्बत भी है।
तेरा होना मेरे लिए सौगात है,
हर दुआ में बस तेरा नाम साथ है।
तू सबसे हसीन, सबसे खास,
इस दिल की धड़
कन, इस जान की साँस।

कल हो न हो

कल हो न हो
मत टालो आज की खुशियों को,
मत रोको दिल की उड़ान,
जो पल हाथ में है अभी,
वही है जीवन की पहचान।

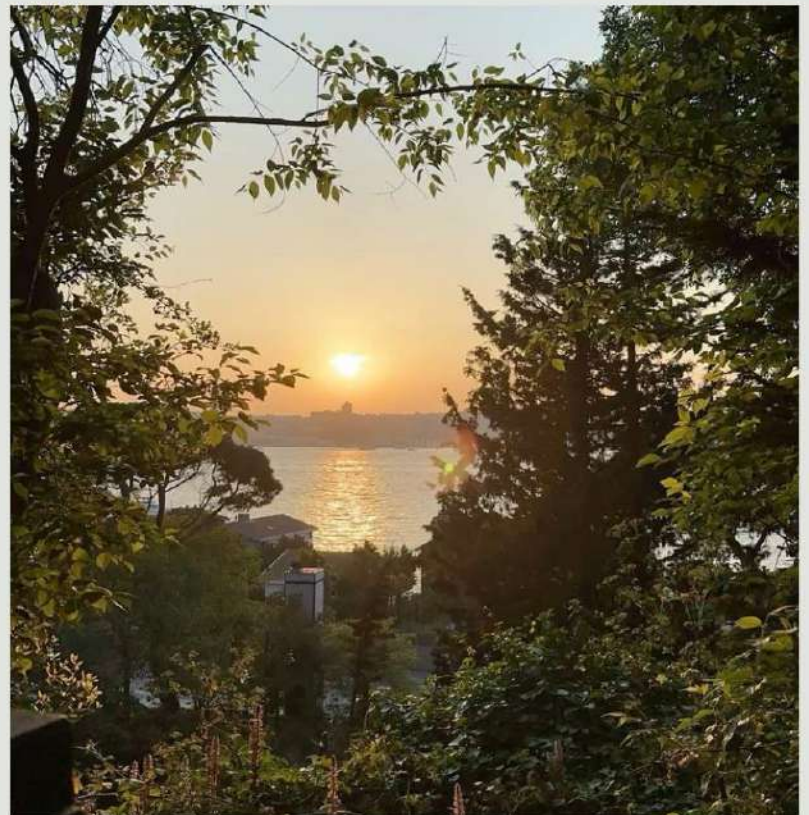

जो कहना है दिल से कह दो,
लबों पर आज ही आने दो,
अनकहे शब्द बोझ बन जाते,
कल के नाम न जाने दो।

आज की हँसी बाँट लो सबमें,
आज ही आँसू भी बह जाने दो,
मन हल्का हो जाता है जब,
दिल को सच बोल जाने दो।

रूठे रिश्तों को आज सुलझा लो,
आज ही तोड़ दो दूरी की दीवार,
वक्रत की रेत फिसलती रहती,
कल न मिले फिर ऐसा अवसर बार-बार।

सपनों को आज पंख लगाओ,
डर को आज ही छोड़ आओ,
कल किसने देखा, क्या होगा,
जो है अभी—उसी में खो जाओ।

हर सुबह एक नई शुरुआत है,
हर शाम एक सीख दे जाती,
कल हो न हो—यह सोच हमें,
आज की कीमत समझा जाती।

तुम इतना सब कुछ कैसे सह लेती हो, माँ?

तुम इतना सब कुछ कैसे सह लेती हो, माँ?
न जाने क्या-क्या अपने भीतर समेटी हुई हो तुम,
पूछूँ तो बताने से इंकार कर देती हो तुम।
इतना सब कुछ कैसे सह लेती हो तुम?
क्यों सोचती हो तुम उनकी बातें और उनके बारे,
करने दो उन्हें बातें बड़े बड़े
बातें बनाने से कोई बड़ा थोड़ी होता,
तुम न होती तो यह ज़िंदगी जन्नत थोड़ी होता।
अरे माँ, तुम हो क्या... तुम हो कैसी?
ज़रा मुझसे पूछो तो सही।
कुछ भी कर लूँ मैं,
न बन पाऊँगी कभी तुम्हारी जैसी।
हर लफ़्ज़, हर बोली, हर आरज़ू में हो तुम,
कैसे बताऊँ तुम्हें....?
सुबह का पहला खयाल
और रात की आखिरी दुआ हो तुम।
थकी हुई रूह का सुकून हो तुम,
टूटी हुई हिम्मत का हौसला हो तुम।
चाहे सुबह हो, हो शाम या त्योहार,
सबसे आखिर में ही खाती हो तुम।
सबका पेट भर जाए पहले,
अपनी भूख को चुपचाप दबाती हो तुम।
सब सह जाना भी एक अद्भुत शक्ति होती है,
यह शक्ति केवल माँ की भक्ति होती है।
वह रोककर भी मुस्कुराना जानती है,
अपने दुःखों को धर्म मान निभाती है।
सनातन परंपरा में माँ ही प्रथम वेद है,
उसका त्याग ही पूजा, उसका मौन ही भेद है।
उसने जीवन को तप बनाकर जिया है,
हर कष्ट को प्रेम की आहुति दिया है।
माँ के चरणों में बसता है सारा संसार,
वहीं से उपजता है संस्कारों का आधार।
उसकी ममता में भक्ति बिना शोर होती है,
बिन मंत्रों के भी आत्मा पवित्र होती है।
वह माँ, जो शिकायत नहीं, विश्वास सिखाती है,
गिरते हुए को भी सिर ऊँचा उठाना सिखाती है।
जहाँ माँ का सम्मान, वहीं धर्म की पहचान,
वही घर बनता है ईश्वर का सच्चा स्थान।
क्योंकि माँ कोई भावना नहीं, संपूर्ण विधान है,
वह सनातन है, वह धर्म है,
वही साक्षात् भगवान है।

सोनपुर नामक एक गांव था जहां पर वामिका नामक लड़की रहती थी। वह एक बहुत गरीब घर में पली- बड़ी। वह पढ़ाई लिखाई में तेज़ थी परंतु पैसों की अभाव के कारण ग्रेजुएशन के बाद पढ़न न पाई। उसके घर में वह और उसकी मां रहती थी, उसके पिता उसके बचपन में ही स्वर्गवासी हो गए, अब उसे ही घर संभालना था।

वह नौकरी के तलाश में शहर जाती है और उसे एक धनवान महिला के यहां नौकरी मिली। वामिका को उस धनी परिवार में उनकी दो बेटियों को पटाने की नौकरी मिली थी। उन धनी महिला का नाम जया था, उनकी दो बेटियां थी और वह एक बड़े कारखाने की मालकिन थी। उनका परिचय कई बड़े लोगों के साथ था। वह अपने घर पर कभी-कभी अपने दोस्तों को खाने पर बुलाती थी, कभी-कभी इसी मौके पर वह वामिका को भी निमंत्रण देती थी।

एक बार की बात है की जय ने 14 लोगों को निमंत्रण किया अपने घर पर आने के लिए परंतु आखिरी वक्त पर एक व्यक्ति ने आने से इनकार कर दिया क्योंकि उनके घर पर कोई समस्या हो गई थी, इसीलिए लोगों की संख्या 13 हो गई। जय अंधविश्वासी थी इसलिए उसे लगा कि 13 अशुभ संख्या है, तो उन्होंने वामिका को भी आमंत्रित किया। उनकी एक दोस्त थी इतिश्री, जो बहुत दिखावा करती थी। इतिश्री अपनी हार का दिखावा करते हुए बोली “यह हर एक लाख का है। यह एक मशहूर जौहरी ने बनाया है।” इस सभा में विजेंद्र नाम के व्यक्ति थे जिन्हें गहनों का बहुत ज्ञान था, वह आसानी से बता सकते हैं कि किसी गने का मूल्य क्या है। उन्होंने वह हर देखा और बोला “हां! यही हर की असली कीमत है”। फिर इतिश्री ने उनसे पूछा आपको यह कैसी लगती है, तो यह सुनकर उन्होंने उत्तर दिया “ अच्छी है”। इतिश्री को इतना सुना काफी नहीं था। उन्होंने वामी का के उंगली पर अंगूठी के ऊपर इशारा करते हुए कहा कि “ बताइए यह कितने की है”। उन्होंने अंगूठी को ध्यान से देखा और कहा कि “यह एक करोड़ की है”। यह सुनते ही सब आश्चर्यचकित रह गए की एक नौकर के पास इतनी महंगी अंगूठी कहां से आ गई। वामिका ने तुरंत उत्तर दिया की “नहीं! यह मैं 100 में खरीदी है” परंतु विजेंद्र जी मानने को तैयार नहीं थे कि उन्होंने गलत कहा है।

अचानक घर में दो लोग प्रवेश करते हैं और वामिका के कानों में कुछ कहते हैं, सुनते ही वामिका सबको यह बोलकर चली गए कि वह कुछ देर में लौटेगी। सभा में चर्चा शुरू हो गई। फिर कुछ ही सन बाद वामिका आती है और बोलती है कि “वह अंगूठी सच में एक करोड़ की थी, वह गलती से मेरे पास आ गई थी” फिर उसने अपनी उंगली पर इशारा करते हुए बोला “यह एक सौ की है”। विजेंद्र जी ने देखा और बोला “हां! 100 की ही है” फिर वामिका ने कहा “ इसके लिए उन्होंने मुझे एक लाख का चेक दिया है क्योंकि उन्हें यह सही सलामत मिल गई”। फिर उसने उसी जगह पर घोषणा की अब वह नौकरी छोड़कर जा रही है। फिर उसने अगले दिन उन पैसों से अपना खुद का बिजनेस शुरू किया। फिर धीरे-धीरे उसका बिज़नेस बड़ा होता क्या और बहुत लाभ हुआ। कुछ ही सालों बाद वह एक धनी व्यक्ति बन गई थी और वह अपने जीवन में बहुत खुश थी।

शीत ऋतु

सर्दी का मौसम आया,
ठंडी हवाएँ संग लाया।
कोहरे की चादर ओढ़े,
शीत ऋतु जब आती है।
काँपे तन, काँपे मन,
सूरज चाचा जल्दी जाकर,
देर से अपना मुख दिखलाए।
हरी घास पर ओस की बूँदें,
सूरज की पहली किरणों से घुलें।
सर्दियों की रौनक मुझको ही भाने लगी,
स्वेटर और कंबल अब तैयार हैं।
गर्म पानी और पकौड़े अब तैयार हैं।
लज़ीज़ और गरमा-गरम भोजन अब तैयार है,
मैं अब खाने के लिए तैयार हूँ।
ये छोटे-छोटे कितने उपहार हैं,
मेरा पसंदीदा मौसम अब आने वाला है।

आया वसंत, आया वसंत

आया वसंत, आया वसंत,
नवल उमंगें लाया वसंत।
कोयल की कूक निराली है,
हर डाली पे हरियाली है।
खेतों में सरसों फूली है,
मंद पवन अब झूली है।
भौरो का गुंजन प्यारा है,
सज गया जग सारा है।
फूलों ने श्रृंगार किया,
प्रकृति ने उपहार दिया।
रंगों की बौछार लगी,
धरती कितनी प्यारी लगी।
आया वसंत, आया वसंत,
नवल उमंगें लाया वसंत।

आकाश में केवल तारे!

आकाश में केवल तारे थे,
रात के शांत नजारे थे।
चाँद भी धीमे से मुस्काता,
जैसे सपनों के सहारे थे।

ठंडी हवा संदेशा लाती,
मन में मधुर भाव जगाती।
हर एक तारा चमक रहा था,
जैसे आशा की ज्योति जलाती।

उस गहरी, सुंदर रात तले,
मैं खड़ी थी कुछ सोच रही।
तारों भरे उस आकाश में,
अपने सपनों को खोज रही।

NCC workshop held at Xavier School, Gamharia

Mail News Service

Gamharia, July 28: A one-day workshop under the Social Service and Community Development (SSCD) activity was organized at Xavier School, Gamharia by the 37th NCC Battalion. The event was jointly inaugurated by Naib Subedar T.K. Pujari of the 37th Battalion and school Principal Father Sebastian S.J. The workshop aimed at educating cadets about sustainable farming practices and environmental care. During the session, school teacher Priya Kumari screened a documentary to emphasize the importance of "advanced farming on barren land," offering valuable insights into land rejuvenation. Another engaging segment included a poster-making competition

conducted by teacher Mousumi Mahato, which encouraged creativity and awareness among the cadets.

Addressing the gathering, Principal Father Sebastian stated, "We must protect our Earth by planting more trees and finding innovative ways to cultivate barren land. Only then can we make our planet more beautiful." The workshop was supported by School Administrator Brother Anandji, Vice Principal Sister Nivedita and Second Officer and Sports Coach Vikas Kumar Singh, whose contributions ensured its success.

The program aimed to instill environmental consciousness and promote sustainable development among young NCC cadets, encouraging them to actively participate in community-oriented initiatives. (w/nkm)
